Subject: Puget Sound Nutrient Dialogue Follow-up

---

Good morning,

I would like to extend my appreciation to all of you who were able to attend the Nutrient Dialogue last week. There was a great turnout, good questions, and I hope you all came away from it with some new knowledge or connections with your existing work.

I have a follow-up survey (<https://www.surveymonkey.com/r/YSBLKB6>) that I would like to use to capture your feedback on the event. There are twelve questions so I expect it to take between 5-10 minutes for you to respond. Please take a few minutes to submit your comments. Your responses will help me understand how I can make improvements for future events like this.

We are working on getting the videos posted on Ecology's YouTube channel, and I expect them to be available within the next few weeks. The presentation slides and a summary of the event will be posted on the Puget Sound Nutrient Source Reduction Project website very soon. I will also post a link to the videos there when they are available. I have also added to the DO listserv those of you who indicated on the sign-in sheet that you would like to be added. I will be using that listserv for future project announcements and information sharing.

Thank you again for participating. If you have other follow up questions, please feel free to send me an email (preferable) or call.

I hope you all enjoy the rest of your summer and that you are able to take time to enjoy all that Puget Sound has to offer.

Kind Regards,

Dustin Bilhimer, Puget Sound TMDL Coordinator
